

INTRODUCING THE REGIONAL DESTINATION FOR ORTHOPAEDIC CARE

July 26, 2012

Dear Cape Fear Academy Parents,

For the past fourteen years, Cape Fear Academy has asked our group to serve as team physicians for the athletic programs. The community outreach services of athletic trainers are provided to Cape Fear Academy athletes by Scott Glickauf, LAT, ATC, CSCS. Scott has over a decade of experience working with athletes. He has an additional certification as a Strength and Conditioning Specialist. Scott will attend home lacrosse, varsity soccer, field hockey, and basketball games and is on call for practices.

Should your child require our services due to a sports-related injury, please call Scott on our Sports Medicine Hotline 1-877-GIVE 110% (1-877-448-3110). He can answer many questions over the phone, arrange to meet an athlete at the school for an evaluation or facilitate an appointment with a member of our medical staff if necessary.

Both on the field and off, OrthoWilmington is ready to provide you and your loved ones with comprehensive orthopaedic, sports medicine, and therapy services. We are pleased to offer sports conditioning services, physical therapy, hand therapy, pain management, and on-site MRI's. For more information, please call our offices at 910-332-3800.

Have a safe and healthy school year,

Richard S. Moore, Jr., MD
Orthopaedic Surgeon
Team Physician for CFA

Scott Glickauf
LAT, ATC
Sports Medicine Coordinator
